

Comparing and contrasting properties of solids

QUESTION: Compare and Contrast the properties of the following solids

Property to compare...	electrical conductivity and solubility and malleability	melting point and solubility	melting point and solubility	melting point
...between these different substances	Zn & ZnCl ₂	SiO ₂ & Br ₂	MgCl ₂ & SiO ₂	SiO ₂ & S ₈

Property to compare...	melting and boiling points	melting point and conductivity and hardness
...between these different substances	NaCl & MgCl ₂ & PCl ₃ & SCl ₂	CO ₂ & SiO ₂
